

# KENKO NATUREST™ CUSTOM PILLOW

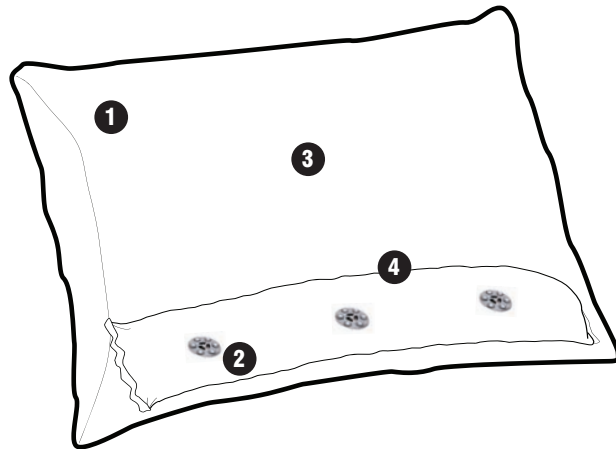

## QUICK REFERENCE SHEET

- Promotes quality sleep for better rest, better health
- Adjustable firmness - choose your ideal degree of comfort!
- Shredded latex filler
- Revolutionary RAM™ Technology for enhanced magnetic coverage
- Insert for orthopedic neck support
- Natural, environmentally renewable materials
- Exceptional ventilation and temperature regulation

### Kenko™ Naturest construction

- 1 All-natural fiber cover
- 2 RAM Technology
- 3 Removable shredded latex filler
- 4 Orthopedic support insert

### KENKO NATUREST CUSTOM PILLOW FEATURES/BENEFITS

- RAM (radial-axis magnetism) Technology . . . . . The only magnetic sleep technology that produces multiple polarities in three dimensions to surround the sleeper.
- Latex foam . . . . . Retains firmness.
- Eco-friendly technology . . . . . Renewable materials instead of petroleum-derived compounds.
- Adjustable firmness . . . . . Packable to make as soft or firm as desired.
- Support insert . . . . . Designed to provide correct head and neck alignment.
- Natural-fiber blend cover . . . . . Breathable, fire-retardant.

# KENKO NATUREST™ CUSTOM PILLOW

## QUICK REFERENCE SHEET

### THE FACTS

- The Kenko Naturest Custom Pillow features advanced innovations that are designed for restful and refreshing sleep. It includes a proprietary new design in magnetic technology. The pillow combines these features with natural materials that afford increased comfort and are environmentally responsible.
- RAM™ (radial-axis magnetism) Technology is a revolutionary step forward in the application of magnetism. This patent-pending design features spherical neodymium 3,200-gauss magnets arranged in circular patterns. Each individual magnet is positioned so that its positive-negative axis is rotated 60 degrees relative to its neighbor. This produces a series of magnetic fields that cover a full 360 degrees in three dimensions.
- This breakthrough is exclusive to Nikken. No other technology using static magnets - and with no moving parts - can deliver this fully three-dimensional magnetic coverage. The field enfolds and surrounds anything in its proximity, even a complex object or body composed of multiple angles.
- The filler in the Kenko Naturest Custom Pillow consists of shredded latex foam. A sleeper can subtract or replace filler to achieve the desired degree of firmness - a personal perfect fit. The shredded filler is especially resilient, to prevent flatness - a common effect when sleeping on ordinary down-filled or foam pillows.
- Latex is resistant to microbial growth and dust mites. It also wicks away moisture, for greater comfort.
- An internal support collar helps to provide correct head and neck alignment. It is placed so that the sleeper can arrange the pillow to select greater or less support, as desired.
- The cover is woven in all-natural fibers, which are produced free from chemical pesticides, insecticides or fertilizers. Natural fibers promote ventilation for regulation of temperature. As with the latex component, they are fully renewable resources.
- Use of these materials makes the Kenko Naturest Custom Pillow fire-resistant, without adding flame-retardant chemicals.

### PRODUCT INFORMATION

ITEM CODE	SIZE
#1155	Kenko Naturest Custom Pillow 19" x 25"
<b>AVAILABILITY</b>	
US: YES CN: YES	
<b>FEATURED NIKKEN TECHNOLOGY</b>	
Nikken RAM Technology (3,200 gauss, 3 RAM pads), natural materials	
<b>MATERIALS CONTAINED IN PRODUCT</b>	
Neodymium magnets, latex, cotton, wool, viscose.	
<b>CLEANING INSTRUCTIONS</b>	
Cover: Dry cleaning recommended. Latex: Spot clean only. A mild detergent may be used if necessary. Air dry.	
<b>WARRANTY INFORMATION</b>	
1-Year Nikken standard limited warranty	

### QUICK SHARING TIP

The magnetic technology and the natural materials used in the Kenko Naturest Custom Pillow are both designed to help replicate a natural sleeping environment, and make better sleep possible.

Caution: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.
