

KENKO NATUREST™ MATTRESS TOPPER

QUICK REFERENCE SHEET

- Promotes quality sleep for better rest, better health
- Revolutionary RAM™ Technology for enhanced magnetic coverage
- Latex foam foundation, superior to polyurethane
- Environmentally renewable materials
- Provides ventilation and comfortable support
- Deluxe thickness

KENKO NATUREST MATTRESS TOPPER FEATURES/BENEFITS

- RAM (radial-axis magnetism) Technology The only magnetic sleep technology that produces multiple polarities in three dimensions to surround the sleeper.
- Latex foam Resists microbial growth, retains firmness, wicks away moisture.
- Eco-friendly technology Renewable materials instead of petroleum-derived compounds.
- Orthopedic support Reduces pressure points, for unparalleled comfort and weight distribution.
- Natural-fiber blend cover Breathable, naturally fire-retardant.
- Improved massage technology Gentle, passive massage effect promotes relaxation.
- Durable materials Latex foam maintains the correct degree of firmness over the long term.

KENKO NATUREST™ MATTRESS TOPPER

QUICK REFERENCE SHEET

THE FACTS

- The Kenko Naturest Mattress Topper is an impressive merger of two very different design principles. It combines advanced sleep innovations — including a radical new design in magnetic technology, seen nowhere else — and traditional, natural materials that are environmentally responsible. The result is a mattress topper that affords an unparalleled sleep experience.
- RAM™ (radial-axis magnetism) Technology is a revolutionary step forward in the application of magnetism. This patent-pending design features spherical neodymium 3,200-gauss magnets arranged in circular patterns. Each individual magnet is positioned so that its positive-negative axis is rotated 60 degrees relative to its neighbor. This produces a series of magnetic fields that cover a full 360 degrees in three dimensions.
- This breakthrough is exclusive to Nikken. No other technology using static magnets - and with no moving parts - can deliver this fully three-dimensional magnetic coverage. The field enfolds and surrounds anything in its proximity, even a complex object or body composed of multiple angles.
- The foundation of the Kenko Naturest Mattress Topper is composed of latex rubber. This offers many advantages over less-expensive polyurethane foam used in most sleep products.
- Latex is hypoallergenic, and is resistant to microbial growth and dust mites. It holds its shape and firmness better than polyurethane foam, for more durable support. Latex also wicks away moisture, for greater comfort.
- A unique surface is produced by shaped nodules, with a proprietary layering process applied that gives them the right amount of firmness, to be soft to the touch yet produce gentle stimulation. The effect is a relaxing massage while you sleep.
- The cover is woven in all-natural fibers, which are produced free from chemical pesticides, insecticides or fertilizers. Natural fibers promote ventilation for regulation of temperature. As with the latex component, they are fully renewable resources.
- Use of these materials enables the Kenko Naturest Mattress Topper to meet federal flammability standards for mattress pads and mattresses, without the use of flame-retardant chemicals.

PRODUCT INFORMATION

ITEM CODE	SIZE
#1150	Demo 29" x 72"
#1151	Twin 39" x 75"
#1152	Full 54" x 75"
#1153	Queen 60" x 80"
#1154	King 76" x 80"

AVAILABILITY

US: YES CN: YES

FEATURED NIKKEN TECHNOLOGY

Nikken RAM Technology (3,200 gauss), natural materials

Demo 13 RAM pads

Twin 13 RAM pads

Full 19 RAM pads

Queen 26 RAM pads

King 26 RAM pads

MATERIALS CONTAINED IN PRODUCT

Neodymium magnets, latex, cotton, wool, viscose

CLEANING INSTRUCTIONS

Cover: Dry cleaning recommended. Latex: Spot clean only. A mild detergent may be used if necessary. Air dry.

WARRANTY INFORMATION

1-Year Nikken standard limited warranty

QUICK SHARING TIP

The magnetic technology and the natural materials used in the Kenko Naturest Mattress Topper are both designed to help replicate a natural sleeping environment, and make better sleep possible.

Caution: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.
