True Elements Skincare

True Elements Swiss Organic Skin Care takes its inspiration from the flowers, vines and herbs that grow in the Valaisan Mountains of the Swiss Alps. Subjected to extremes of temperature and humidity over the course of centuries, these extraordinary plant strains have developed an unusual resistance to the effects of environmental stress.

Organic essences of these rare plants are refined and blended to create True Elements, a complete line of high performance products that form a comprehensive skin care regimen. These unique formulations help safeguard skin from the challenges of weather and aging, for a more youthful, radiant looking complexion.

THE FACTS

- True Elements Pore Refining Toner is applied after using True Elements Foaming Face Wash. The Pore Refining Toner is a water-based formula that complements the Face Wash gel by removing traces of oil and adding moisture by hydration. It also contains aloe vera and hyssop to complete the cleansing process while softening and smoothing skin.
- Pore Refining Toner improves skin texture and appearance, helping to refine pores, to balance skin's natural moisture level and leave it radiant looking.
- True Elements Pore Refining Toner features proprietary Nectapure complex, a combination of two natural plant essences from the Swiss Alps, formulated as a response to a harsh environment. Nectapure combines butterfly bush and thyme, natural Alpine vegetation.
- Sun, wind, airborne pollutants, free radicals and advancing years all can accelerate a prematurely aged look. Nikken True Elements is a system of professional-quality care that delivers results in several ways — gentle cleansing, help in balancing skin pH, replenishment of lost moisture and nourishment.
- The complete True Elements skin care line consists of unique formulations based on natural source materials. Only top-quality ingredients from European suppliers are used.
- The plant extracts in True Elements products are certified by Ecocert, a control and certification organization qualified by the French Committee for Accreditation.
- In Ecocert certified skin care products, at least 95% of the ingredients must be natural or of natural origin. The Ecocert seal is a guarantee that these products contain:
 - No mineral oil or silicon
 - No emulsifiers that include PEG
 - No viscosity-controlling agents such as carbomer
 - No preservatives that include phenoxyethanols or parabens
 - No synthetic dyes, colors or perfumes
 - No solvents that include propylene glycol
